

Mission

To maintain or improve the quality of the environment by providing robust independent advice that influences decisions

Values

Excellence	The questions we raise and the solutions we propose are based on sound science and reasoned argument. We are accountable to the people of New Zealand and deliver value for the funding we receive.
Determination	We bravely and constructively question the status quo. We persist in communicating the results of our work in different ways to maximise its usefulness.
Generosity of spirit	We work together in an open collegial way, sharing our expertise, listening carefully and not rushing to judgment. We actively acknowledge decisions and actions that benefit the environment.
Innovation	Our independence empowers us to think freely and creatively. We strive to get beyond describing problems to proposing solutions.
Effectiveness	Others trust and respond to our advice. Our work has a lasting and tangible impact on the New Zealand environment.
